

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES
Lopez, Quezon Campus

LEVEL III ACCREDITATION SURVEY VISIT

BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION MAJOR IN MARKETING MANAGEMENT

AREA I

VISION, MISSION, GOALS, AND OBJECTIVES

COMPLIANCE REPORT

ACCREDITING AGENCY OF CHARTERED COLLEGES AND UNIVERSITIES (AACUP)

Program : BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION
MAJOR IN MARKETING MANAGEMENT

SUC : POLYTECHNIC UNIVERSITY OF THE PHILIPPINES

Branch/Campus : LOPEZ

Date of Last Visit : JULY 4 – 8, 2022

Present Accreditation Status : LEVEL II REACCREDITED

COMPLIANCE REPORT

AREA I : Vision, Mission, Goals, and Objectives

AACCUP Recommendations	Action Taken by Host/Program	Percentage of Compliance	Proof/Evidence
1. The PUP-Lopez Branch may consider increasing the tarpaulin size where the VMGOs are printed and enclosing it with a wooden or aluminum frame before posting and fixing it in conspicuous places within and outside the campus.	To strengthen the effective dissemination of the University's Vision, Mission, Goals, and Objectives (VMGO), the institution implemented a campus-wide visibility enhancement initiative. Prior to the implementation, the VMGO posters displayed inside the classrooms measured 13 x 8.5 inches (1.08 x 0.71 ft), while the posters placed in conspicuous areas measured 18 x 12 inches (1.5 x 1 ft). To address the recommendation, the campus upgraded the VMGO materials by increasing the classroom posters to 18	100%	- Photographic Documentation of Installed Sintra Boards showing the placement in classrooms, laboratories, hallways, staircases, and outdoor areas. https://drive.google.com/drive/folders/10o01Fe8PXKXoZRDm42yVvM-K43nsDMv9?usp=drive_link - Copy of the approved layout used for printing https://drive.google.com/drive/folders/1zCxoKo75lcHj2Xgqih_0VsC8XcDnOTrQ?usp=drive_link

	x 12 inches (1.5 x 1 ft) and the VMGO displays in conspicuous areas to 24 x 18 inches (2 x 1.5 ft). These materials were designed using clear, high-resolution formats to ensure readability and consistency in presentation. Compared to traditional tarpaulins, sintra boards were selected for their durability, professional appearance, and long-term usability. Strategic placement ensured that faculty, administrative staff, students, and stakeholders are consistently exposed to the VMGO upon entering and moving through various areas of the campus. The initiative aims to reinforce awareness, promote internalization, and foster alignment with the University's guiding principles in both instructional and common spaces. It also demonstrates the commitment of the campus to continuously promote institutional identity, strengthen awareness, and comply with accreditation standards. The increased visibility supports a shared		• Service Invoice reflecting the purchase of sintra boards intended for the installation of VMGO displays across classrooms, laboratories, hallways, and staircases. https://drive.google.com/drive/folders/1Mx4gZ-WQhiFdPtoOmuAVWxxEPo_ki-Hs?usp=drive_link • Inventory and Distribution List of Installed Boards including the quantity, sizes, and specific indoor and outdoor locations. https://drive.google.com/drive/folders/1SjDPUrm2MVv5iERqUMgYgcKq_GzBqmYR?usp=drive_link

	sense of direction and institutional identity.		
2. The BSBAMM department at PUP-Lopez Branch may encourage more students or at least 10% of its population at different year levels to actively participate in the formulation of the goals and objectives of the program.	The BSBAMM department strengthened student engagement by institutionalizing mechanisms that ensure broader participation in the formulation and review of program goals and objectives. A structured consultation process was conducted, involving students from different year levels, with a target participation rate of at least 10% of the total student population. Consultative meetings and surveys were organized to gather insights, feedback, and suggestions from students. Student leaders and class representatives were also mobilized to encourage wider participation and ensure representation across year levels. The collected data were consolidated and analyzed, and relevant inputs were integrated into the refinement of the program goals and objectives. 3. The design of the learning plan in the syllabus may be reviewed to ensure the vertical alignment of institutional, program, course, and intended learning outcomes to the VMGO of the university.	The department conducted a comprehensive review and revision of course syllabi to ensure vertical alignment among institutional learning outcomes (ILOs), program learning outcomes (PLOs), performance indicators (PI), course learning outcomes (CLOs), and desired learning outcomes (DLOs), all	100%	- Proof of capacity-building activities on OBE syllabi and alignment https://drive.google.com/drive/folders/1W8W2NDY_7yveK56S8cluQTDclUaQNE9m?usp=drive_link - Syllabi Template

	anchored on the VMGO of the university. Workshops and collaborative meetings were conducted among faculty members to map and align learning outcomes using outcome-based education (OBE) principles. Alignment matrices were developed to clearly demonstrate the relationship between VMGO and PLOs		https://drive.google.com/drive/folders/10tyblNhHjUz7hoPBEHyZy5shT5iyEvyy?usp=drive_link Alignment Matrix (VMGO–PLOs Mapping) https://drive.google.com/drive/folders/199zEiPJG7eeF5ga36qJcZuU8HwS5iZFv?usp=drive_link
