AACCUP Recommendations	Action Taken by Host/Program	Percentage of Compliance	Proof/Evidence
1. Explore more extension projects that would serve varied clienteles and beneficiaries in the Bachelor of Science in Business Administration Major in Marketing Management Program.	- The program along with the extension team conducted community-based needs assessments to ensure that new projects are tailored to the specific needs or challenges of the target. - Following the assessment, the program successfully launched a targeted extension project which is currently ongoing to address the identified community needs. - The program continuously develops and implements additional extension activities to further expand its reach within the community.	100%	https://drive.google.com/drive/folders/1cjTkI9GdC4DQlrX2UWByBMNi86zPBRQM?usp=sharing
2. Conduct researches to determine the changes in the quality of life of the clientele as a result of the adoption of the technologies from the extension programs of the campus is a must to ensure that these programs are answering the purpose of their development.	- The program along with the extension team conducted community-based needs assessments to ensure that new projects are tailored to the specific needs or challenges of the target. - Following the assessment, the program successfully launched a targeted extension project which is currently ongoing to address the identified community needs.	100%	https://drive.google.com/drive/folders/1cKmzkgN8QRf3dVsytymrRqCJMzx1QidO?usp=sharing
3. Impact studies may be conducted to determine the effectiveness of extension projects and activities implemented.	The program encountered several bottlenecks during the implementation of the 3rd phase of the extension project, including the unavailability of targeted participants and technical difficulties.	100%	Rescheduled phase 3 of the extension project (paper)

	The program set the extension project with a new schedule through the Research and Extension Management Office (REMO) and coordinated with the target participants.		Supporting documents as evidence
4. The creation of strong linkages with more funding institutions to enhance the exchange of expertise and new technologies and augment the limited budget for extension is highly recommended.		100%	
5. The need to conduct external funding for the implementation of the different extension activities.	- The program sought out possible external funding sources, including government agencies, non-governmental organizations (NGOs), and industry partners, to support the expansion and implementation of extension activities. - Through proactive networking and formal applications, the program successfully secured external financial or resource support, enabling the implementation of projects. - The program successfully conducted extension activities fully funded by external partners.	100%	- Letter for external funding of the extension - Minutes of the meeting? If applicable? - Pictures
6. The results of monitoring and evaluation should be disseminated and discussed with concerned and stakeholders and properly documented.	- The program faculty and extension team conducted a formal site visit to the targeted extension beneficiaries to personally present and discuss the outcomes of the concluded extension activities. - The findings were discussed in detail with concerned parties, including faculty, student representatives, and industry partners, to identify strengths and address areas for improvement based on the evaluation data. - During the visit, the program engaged in a two-way dialogue, gathering direct feedback from the community regarding the effectiveness of the project and identifying further needs for future intervention.	100%	https://drive.google.com/drive/folders/1eIPBrZALc1QmYFE0kCcQ8N7FVU-Pp5e9?usp=sharing

	The visit and the subsequent discussions were properly documented with attendance sheets, photos of the field activity, and minutes of the meeting to serve as evidence of transparent results dissemination.
